

Article Galaxy ROI Calculator – Savings Report

Return-On-Investment (ROI) Calculation for ROI Calculator

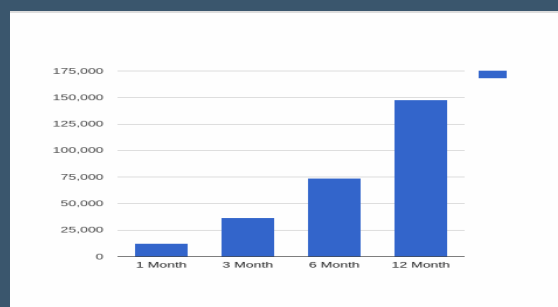

Thank you for providing information about your organization's scientific literature needs. Given the **35** of researchers in your team and the **56** of articles acquired per person per year, the Article Galaxy research platform can help your organization save **147595** per year, a **28%** reduction in cost

147595

Gross Total Yearly Savings

28%

Your Benefits at a Glance

The Article Galaxy platform makes your research more time-and cost-effective:

- Enable your researchers to access documents on-demand and avoid duplicate orders.
- Get articles delivered to your inbox near real-time and at the lowest cost available.
- Receive 80% of articles within 1 hour, 97% within 1 day, and 99.9% within 1 week.
- Reduce distraction and delay for you researchers, keeping them in one workflow.
- Facilitate ownership and collaboration with a single system of record.

Your Savings

The ROI calculator shows that your organisation spends **940800** on peer-reviewed journal articles each year and incurs added hidden costs of **1308214.6330909** based on time invested in literature search multiplied by a researcher's average salary. In total, your organization pays **2249014.6330909** for scientific literature access annually. That equals **9.6218181818182** in FTE (Full Time Equivalent) you can save in hiring qualified workers.

By using Article Galaxy, you can save **147595.32911932** per year or **12299.610759943** per month. These monthly savings entail:

- Efficient search & orders **<=>10876.218181818**
- Reduced article order spend **<=>0**
- Less invoicing & rush orders **<=>1321.3092447917**
- Reference Manager savings **<=>102.083333333333**

We guarantee you that the cost of our platform will be max. 50% of your savings and most probably less. To determine your exact savings, our Sales Manager needs to get a good understanding of your specific situation.

How We Calculate Your Savings

Reprints Desk, a subsidiary of Research Solutions, works with hundreds of corporate biotech and pharma businesses, supporting millions of searches and tens of thousands of document purchases via Article Galaxy. As a result of this volume of data, we have learned how long an average search takes, how long an order takes, and the myriad hidden costs an organization absorbs when individuals undertake comprehensive research of the scientific literature.

Based on this data and relationships with almost all publishers in the world, we:

- Have estimated different costs for literature orders done by PhDs compared to admins.
- Know with precision how often article rentals are sufficient over purchases.
- Obtain favourable pricing options for article purchases and copyright clearance.
- Guide users to Open Access versions filtering via UnPaywall, saving them costs.
- Know how much time it takes to purchase from each publisher, saving you extra steps.
- Offer one consolidated monthly invoice for all your purchases, saving your users time.

Article Galaxy includes a number of features that help your organization save time and money. The **Article Galaxy Widget** integrates seamlessly with over 70 common literature search environments including PubMed and Google Scholar, so you can see the latest Altmetric values for each article, robust Open Access filtering, as well as subscription access and on-demand pricing options for every journal article and book chapter available. As you can see from the ROI Calculator data, these Article Galaxy features add up to substantial savings for you and your organization.

So, What's Next?

Soon you will be contacted by a member of the Reprints Desk team. We would like to schedule a 15-minute consultation where we will show you a 1-minute video and ask questions in order to better understand your research content needs. From that point we can determine if a tailored demo is appropriate or if you have other stakeholders who need to be involved.

Thanks again for sharing information about your organization. We hope it's clear that you would benefit by working more closely with us and applying our award-winning Article Galaxy platform.

Sincerely,
